Using MetaMask

1. Go to MetaMask and access your wallet, or follow the instructions to create a new one.
2. Make sure you've imported your account
3. Press Send
4. In the "Recipient Address" field, fill in the ICO contract address:

   0xe4cAe386D0a4be69eF020B1f1AE3730719A1A804

5. In the "Amount" field, fill in the amount you wish to send. Minimum accepted is 0.01 Ether
6. Press Next
7. We strongly advise to use at least 300,000 as gas limit to make sure your transaction will be processed by the contract.
8. You can usually lower gas price to 10 Gwei and still get your transaction processed in a short time.
9. Press Submit
